

IMPSPORT

CUSTOM COLLECTION

IMPSPORT.COM

WELCOME TO IMPSPORT

Impsport have provided custom kit to the world's elite riders since the late 1970s, including Tour de France champions, national squads and professional teams.

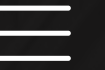

Our team of artists, printers and fabric technicians are all based at our Lincoln HQ, offering us a unique base of expertise and experience.

IMPSPORT CUSTOM COLLECTION

The new Impsport collections of exciting, technical performance clothing bring together the knowledge we have gained by working with some of the worlds greatest athletes and industry leading independent research and design facilities.

Our innovative technical advances stand apart from anything else manufactured anywhere in the world - proudly designed and built in the UK.

Offering high quality, entry level garments at competitive prices - ideal for charity rides, cycling festivals and corporate events.

Technical fit garments utilising specialist fabrics in key areas for maximum aerodynamic and speed gain.

Specialist tough & rugged jerseys for MTB, BMX, downhill, trail, enduro racing and cycle speedway.

Essential ride accessories covering winter warmers to the classic cycling cap. Perfect for teams or events.

SPORTIVE

T1 RANGE

T2 RANGE

T3 RANGE

OFF-ROAD

TRIATHLON

ACCESSORIES

Premium quality club level garments. Comfortable, with a perfect fit. Our most popular custom choice.

State-of-the-art technology and wind tunnel tested fabrics create the fastest garments available to the UK custom market.

Premium quality club level triathlon suit and separates, aero sleeved tri suit and running vests.

IMPSPORT SPORTIVE RANGE

SPORTIVE JERSEY

CUSTOM

Fully customisable jersey with full length or short zip options available. Three rear elasticated pocket compartments for safe storage.

BREATHABLE

Manufactured using ClimaCore 140g technical performance polyester fabric, designed to wick moisture away from the body quickly, keeping you cool and dry.

FIT

Cut with style and generosity and available in gender specific fits and childrens sizes to suit all ages and abilities.

COMFORT

Traditional elasticated silicone gripper positioned internally at hem to eliminate unwanted movement.

SPORTIVE BIBSHORTS

CLASSIC

The all black, pre-dyed Lycras selected for the Sportive Bibshorts are hardwearing and comfortable for a longer garment life.

BREATHABLE

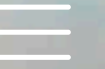

Ultra light-weight, high wicking mesh bib for optimal breathability. Tight, professional fit, helps keep muscles warm and optimise performance.

FRESH

ClimaTec fabrics wick moisture away from the body quickly, keeping you cool, fresh and dry.

COMFORT

High performance FF-Sport seat pad especially designed for maximum comfort. Featuring an anti-bacterial finish with high density foam layers for shock absorption.

IMPSPORT T1 RANGE

SHORT SLEEVED
T1 ROAD JERSEY

CUSTOM

Fully customisable jersey with full length, locking zip. Three rear elasticated pocket compartments for safe storage.

BREATHABLE

Manufactured using ClimaCore 140g technical performance polyester fabric, designed to wick moisture away from the body quickly, keeping you cool and dry.

FIT

The T1 Road Jersey has an improved fit across the whole size range and is easy to wear making it our most popular club kit jersey choice.

COMFORT

Mesh side panels increase comfort and breathability and offer a further branding / logo position option.

LONG SLEEVED
T1 ROAD JERSEY

CUSTOM

Fully customisable jersey with long sleeves. Ideal for layering under a jacket or gilet for colder rides.

FIT

Elasticated silicone gripper, positioned internally at the hem to the side and rear panels, keeps the jersey in position when riding.

REFLECT

T1 Jerseys feature reflective detailing to the rear pocket for additional visibility in low light and bad weather.

COMFORT

No irritation, non-elasticated sleeve cuff for improved comfort. The great fit of the T1 Jersey helps keep sleeves in position.

T1 BIBSHORTS

CUSTOM

A perfect combination of customisable panels and hard-wearing black Lycra middles provide a long garment life whilst looking superb.

BREATHABLE

Ultra light-weight, high wicking mesh bib for optimal breathability. Tight, professional fit, helps keep muscles warm and optimise performance.

FIT

Anatomic multi panel construction provides an aerodynamic fit and is ideal for club and sponsor logo application.

COMFORT

Imports only use the best seat pads supplied by industry leading Dolomiti (Italy). There are 3 options all of which are highly breathable and fully antibacterial.

SHORT SLEEVED
T1 SKINSUIT

STREAMLINE

Aerodynamic construction with a close fit to enhance the riders streamline profile, reducing drag and optimising performance.

CUSTOM

The T1 Skinsuit is fully customisable. The wrap around leg sections curve into a printable rear panel offering more design application options.

FIT

Finished with a locking stretch zip. The zip flexes with the garment holding it closer to the body for improved fit, added comfort and a secure hold.

COMFORT

Impsport only use the best seat pads supplied by industry leading Dolomiti (Italy). There are 3 options all of which are highly breathable and fully antibacterial.

LONG SLEEVED
T1 SKINSUIT

STREAMLINE

Aerodynamic construction with full length sleeves to optimise the streamline profile and aid resistance to wind chill during cooler races.

CUSTOM

The T1 Skinsuit is fully customisable. The wrap around leg sections curve into a printable rear panel offering more design application options.

FABRIC

ClimaCore & ClimaTec fabrics wick moisture away quickly, keeping you cool and dry. Hard-wearing black Lycra middles provide a long garment life.

COMFORT

Traditional elasticated silicone gripper positioned internally at the leg hem to eliminate unwanted movement.

T1 RAIN GILET

PROTECT

The T1 Rain Gilet is designed specifically for changeable and wet weather and is light enough it can be scrunched to fit into a jersey pocket.

REFLECT

The highly durable and breathable waterproof fabric is finished with reflective piping in key areas for additional visibility in low light and bad weather.

CUSTOM

The design application is fully customisable for great looking club or team colours.

FIT

Slim, athletic cut with side panel patterning for increased comfort, fit and logo/design application.

T1 LIGHTWEIGHT JACKET

CUSTOM

Fully customisable intermediate jacket suitable for cooler early morning rides or a chilly evening.

COMFORT

Manufactured using heavy-weight technical ClimaCore fabric designed to wick moisture away from the body whilst keeping you warm and protected from wind chill.

WARMTH

Highly versatile and super comfortable to wear, the T1 Lightweight Jacket can be worn in all but the coldest conditions.

STORAGE

Three rear elasticated pockets on the lower back help improve fit of the garment and keep belongings secure.

T1 RAIN JACKET

PROTECT

Purpose-built to keep the rider dry in wet conditions whilst maintain a low weight and streamlined form.

CUSTOM

The design application is fully customisable for great looking club or team colours. Featuring side panel patterning for increased comfort, fit and logo/design application.

REFLECT

Highly durable and breathable waterproof WindTex fabric finished with reflective piping in key areas for additional visibility in low light.

FIT

The tailored fit is similar to a jersey making it comfortable whilst maintaining flexibility in the upper body for all riding styles.

T1 WINTER JACKET

COLD

The ultimate extreme cold weather protection – nailing all the features you’ll need to keep going ‘in the drops’.

PROTECT

Highly breathable fabric, two-piece high collar and YKK water/wind resistant zipper keep the cold and wet elements at bay whilst aiding heat retention.

STORAGE

Three rear pockets on the lower back help improve fit of the garment and keep belongings secure. An additional zipped valuables pocket is also featured.

FIT

Featuring a slim and athletic cut with side panel patterning for increased comfort, improved fit and fully customisable design application.

IMPSPORT T2 RANGE

PHOTO @THROUGH_THE_LENS.MEDIA

SHORT SLEEVED
T2 ROAD JERSEY

CUSTOM

Fully customisable jersey with full length, locking zip. Three streamline rear pockets and a zipped valuables pocket for safe storage. Short or long sleeved.

BREATHABLE

Manufactured using highly breathable ClimaCore 140g technical performance fabric and Stretch-Aero ribbed fabric used to disrupt air flow.

FIT

The T2 Jersey offers precise patterning and a slim, athletic cut to maximise advantage in the riding position.

TECH

This lightweight jersey is finished with super-fine internal silicone grippers to hold the sleeves and body in position without adding additional bulk.

CUSTOM LEG BAND
T2 BIBSHORTS

CUSTOM

Specialist black fabrics offer supreme comfort whilst the leg gripper bands can be customised for great looking club or team colours.

FIT

Anatomic multi panel construction enhances flexibility for a more comfortable fit and offers superior compression to help keep muscles warm and optimise performance.

FABRIC

The textured fabrics used in the T2 Bibshorts have been wind tunnel tested to reduce drag and maximise aerodynamic shape and speed gain.

COMFORT

Impsport only use the best seat pads supplied by industry leading Dolomiti (Italy). There are 3 options all of which are highly breathable and fully antibacterial.

CUSTOM T2 BIBSHORTS

CUSTOM

Fully customisable leg and bum panels offer further branding / logo position options for great looking club or team colours.

FIT

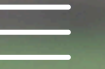

Laser-cut, soft-silicone gripper bands hold the shorts comfortably in position and reduce unwanted garment movement.

FABRIC

Short middles utilise ClimaTec Stretch-Pro textured black fabrics for a prolonged garment life and maximum aerodynamic shape.

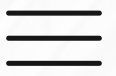

COMFORT

Soft feel comfort brace system holds perfectly with near invisible straps, the ultra-light mesh bib-back is highly breathable for greater ventilation.

SHORT SLEEVED
T2 SKINSUIT

AERO

The fabrics utilised in this garment have been especially selected for their unique streamline properties and benefit from air flow analytics.

CUSTOM

The design application is fully customisable and includes leg and bum panels plus laser-cut leg grippers for great looking team and club kits.

FIT

The tight, professional fit offers superior compression to help keep muscles warm and optimise performance.

COMFORT

Impsport only use the best seat pads supplied by industry leading Dolomiti (Italy). There are 3 options all of which are highly breathable and fully antibacterial.

LONG SLEEVED
T2 SKINSUIT

AERO

Extended aero sleeves disrupt air flow to minimise the drag coefficient of the garment and increase aerodynamic and speed performance.

CUSTOM

The design application is fully customisable and includes leg and bum panels plus laser-cut leg grippers for great looking team and club kits.

FABRIC

ClimaCore & ClimaTec fabrics wick moisture away quickly, keeping you cool and dry. Hard-wearing black Lycra middles provide a long garment life.

FIT

Soft silicone gripper bands hold the shorts comfortably in position and reduce unwanted garment movement.

OPEN ZIP
T2 SKINSUIT

OPEN-ZIP

Combining the advantages of separate jersey and bibshorts with a streamline racesuit, the T2 Open Zip Skinsuit is ideal for longer endurance racing and for additional comfort.

CUSTOM

Anatomic multi panel construction enhances flexibility for a more comfortable fit and is ideal for logo application. The bum and leg panels offer more options for customisation and design.

POCKET

Featuring a unique raw edge back aero pocket which holds closer to the body for optimum aerodynamic performance.

COMFORT

Imports only use the best seat pads supplied by industry leading Dolomiti (Italy). There are 3 options all of which are highly breathable and fully antibacterial.

CX THERMAL
T2 SKINSUIT

THERMAL

Utilising ThermoCore fabrics throughout which trap a layer of warmth against the rider, making it the ideal garment for CycloCross racing.

COMFORT

Combining the simplicity of a separate jersey and bibshorts with the streamlined advantage of a racesuit, to make a comfort break or kit change super-swift.

WARMTH

Fabrics keep muscles warm, even at colder temperatures, and the long sleeves are finished with binding at the wrist to hold the garment securely and minimise cold ingress.

CUSTOM

The design application is fully customisable and includes leg and bum panels plus laser-cut leg grippers for great looking team and club kits.

T2 RAIN GILET

PROTECT

Designed for serious wet and windy riding conditions, the T2 Rain Gilet helps maintain core body temperature and protects against heavy downpours and wind chill.

REFLECT

The highly breathable waterproof fabric is finished with a reflective strip on the rear pocket and selected seams for added visibility in bad weather.

CUSTOM

The design application is fully customisable for great looking club or team colours. Featuring a slim, race-orientated cut.

COMFORT

High collar and longer tail section for extended protection from spray and splashes. Sweat is wicked away quickly to prevent clamminess.

T2 LIGHTWEIGHT JACKET

CUSTOM

Fully customisable intermediate jacket suitable for cooler early morning rides or a chilly evening. Featuring a slim, race-orientated cut.

COMFORT

Fleece-lined fabric traps warm air against the skin to create a barrier against cold. The DWR treatment is water-resistant to repel cold and damp.

WARMTH

High, fleeced lined collar for additional comfort and warmth. The highly breathable fabric helps to maintain body temperature without overheating.

REFLECT

Reflective strip on the rear pocket and selected seams for added visibility in bad weather and low light.

T2 WINTERJACKET

COLD

The soft-feel, fleece interior traps warm air against the skin to create a barrier against cold whilst the exterior surface deflects wind chill for ultimate protection from extreme conditions.

PROTECT

The high, fleeced lined collar, waterproof zip and water-resistant fabric keep out the cold and damp without overheating.

STORAGE

Two rear pockets and additional zipped pocket to keep belongings secure. Reflective strip on rear zipped pocket and selected seams for added visibility.

FIT

Slim, race-orientated cut for aerodynamic advantage in challenging riding conditions.

IMPSPORT T3 RANGE

T3 ROAD JERSEY

CUSTOM

Fully customisable jersey with full length, locking zip. The zip flexes with the garment holding it closer to the body for an improved fit.

BREATHABLE

Manufactured using highly breathable ClimaCore Stretch-Flow super smooth fabric, used to aid aerodynamic shaping.

WEIGHT

Unique streamline and lightweight fabrics have enabled us to create the lightest road jersey available to the UK custom market - weighing in at just under 90g.

TECH

Unique raw edge aero pockets hold closer to the body for optimum aerodynamic performance. Minimal, strategically placed seams optimise drag reduction.

BLACK T3 BIBSHORTS

CLASSIC

Specialist black ClimaTec Stretch-Pro fabric offers supreme comfort, durability and a reduction in drag by deflecting air more efficiently.

FIT

Constructed from a single aerodynamically enhanced panel, with minimal seams for a more comfortable ride and increased aerodynamic performance.

BREATHABLE

Moisture is actively wicked away from the body quickly to keep you cool and dry. The lightweight comfort brace system holds perfectly with near invisible straps.

COMFORT

The Gel-Contour seat pad offers maximum comfort at all distances. Featuring multi-layered, antibacterial foams combined with a gel pad for shock absorption.

CUSTOM T3 BIBSHORTS

CUSTOM

The single aerodynamically enhanced panel offers a huge range of customisation options for great looking club or team colours.

TECH

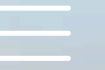

Raw edge leg hem with super fine internal silicone gripper holds the short in position without adding additional bulk.

FABRIC

The ClimaCore fabrics utilised in this garment have been especially selected for their unique streamline properties and benefit from air flow analytics during the garment pattern production.

COMFORT

The tight, professional fit, offers superior compression to help keep muscles warm and optimise performance.

T3.2 AERO+ TT SUIT

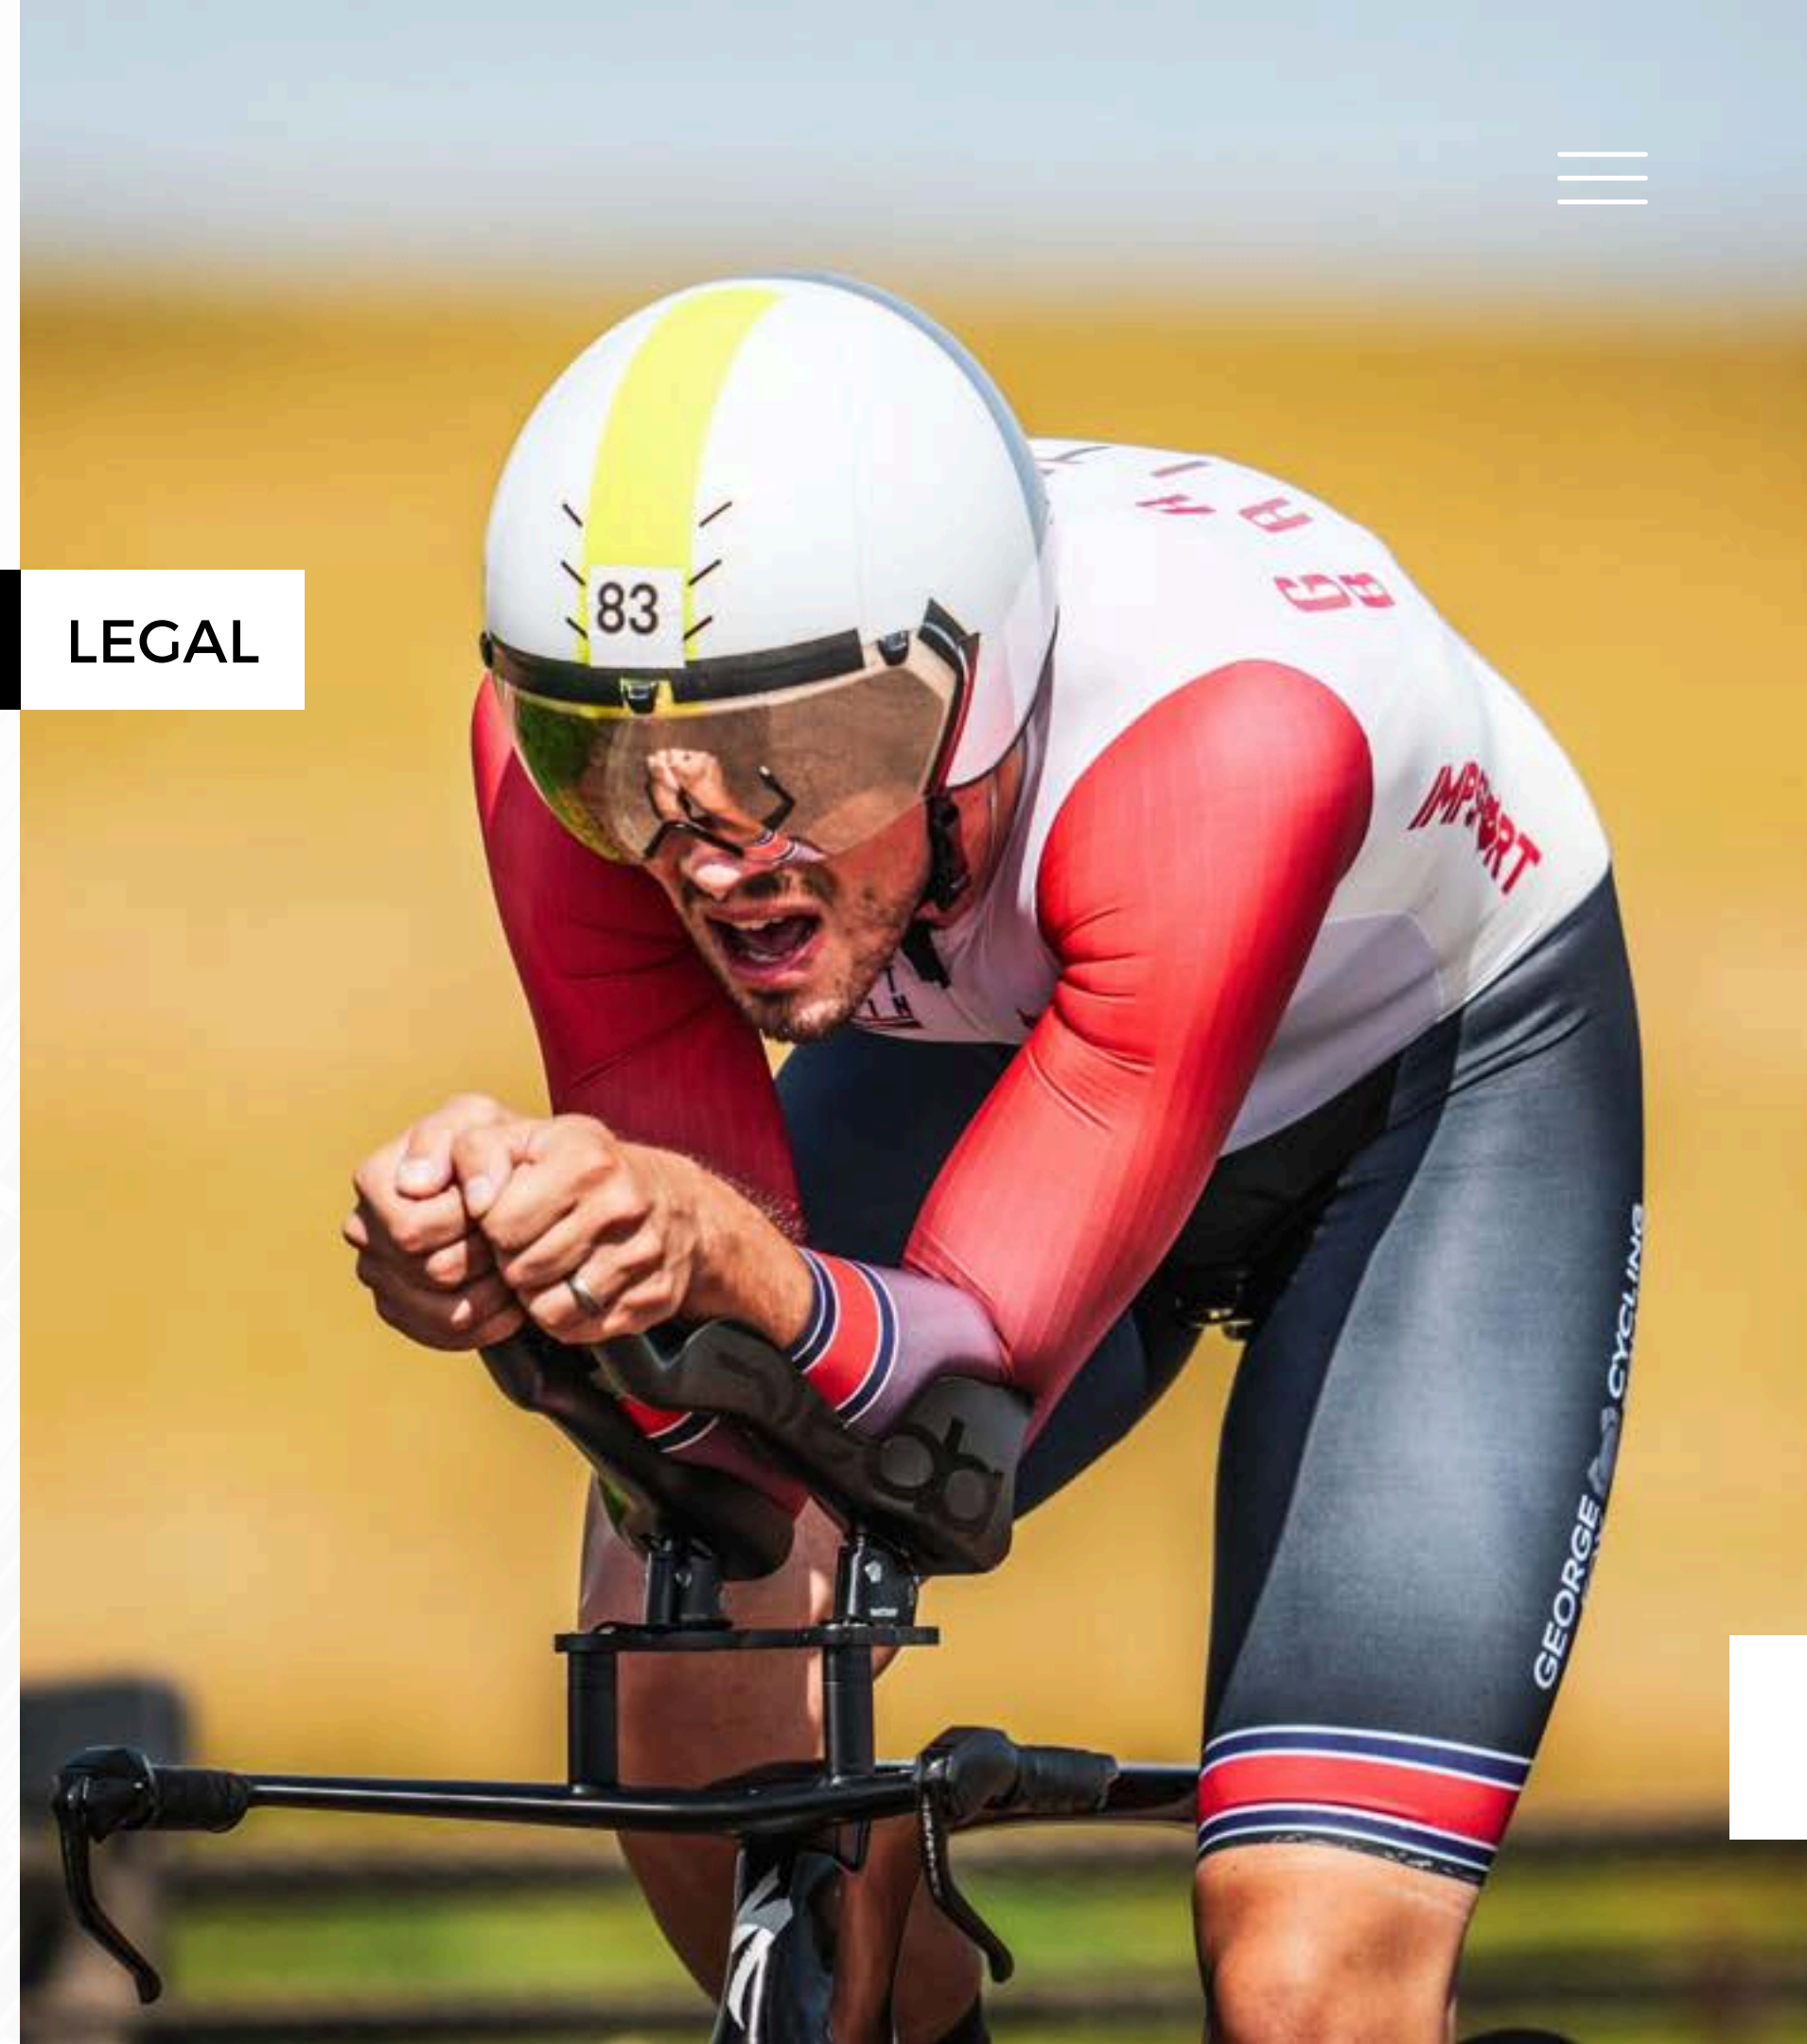

UCI LEGAL

The T3.2 Aero+ TT Suit offers patented (EP3213911B1) boundary layers in the upper sleeves and side panels to yield significant aerodynamic savings.

The composite construction stretches a smooth outer fabric over a ribbed inner layer, creating subsurface disruptions and displacing the air flowing over the boundary layer.

Fully UCI legal, the suit has undergone rigorous testing and is suitable for official events.

PATENTED MULTI-MEMBRANE BOUNDARY LAYERS

LOW PRO POSITION
T3.2 AERO+ TT SUIT

CUSTOM

T3 Suits can be custom fitted to your individual requirements for an enhanced streamline shape, lowering the CdA (drag coefficient) and increasing Watt savings.

PATENT

Patented boundary layers in the upper sleeves and side panels to enhance aerodynamic stability and reduce drag, maximising speed through the air.

UCI LEGAL

Fully UCI legal, the suit has undergone rigorous testing and is suitable for official events.

TIME TRIAL

Specifically patterned for the low-pro position of TT and pursuit events to maximise gains in these disciplines.

UPRIGHT POSITION
T3.2 RACE SUIT

CUSTOM

T3 Suits can be custom fitted to your individual requirements for an enhanced streamline shape, lowering the CdA (drag coefficient) and increasing Watt savings.

STABILITY

Minimal panel construction technology for a reduction in seams, enhancing aerodynamic stability, comfort and speed through the air.

SPRINT

This garment is specifically patterned for the upright position of sprint events to maximise gains in these disciplines.

SPEED

Optional single or double integrated race number pockets included as standard providing optimum streamline shape whilst protecting your suit from pin damage.

LOW PRO POSITION
T3.1 TT SUIT

CUSTOM

The design application is fully customisable including a choice of seat pads supplied by industry leading Dolomiti (Italy).

TIME TRIAL

Specifically patterned for the low-pro position of TT and pursuit events to maximise gains in these disciplines.

TAILORED

The Impsport team of skilled technicians can custom fit our garments remotely for a more cost-effective solution.

TECH

The fabrics utilised have been especially selected for their unique streamline properties and benefit from air flow analytics during garment production.

CUSTOM FIT SERVICE

WANT TO GO FASTER?

The performance of a race suit is considerably improved when it is custom fitted to the rider - creating a pattern which perfectly matches unique proportions. Our team of skilled technicians can even custom fit our kit remotely for a more cost-effective solution. This includes the latest in overshoe technology - the Impsport T3 Aero Overshoe, which can be tailored to fully meet UCI specifications and has shown real-world savings of 10+ Watts!

10+ WATTS

UCI LEGAL
T3 AERO OVERSHOE

WATTS

Our unique trip seam transition system reduces drag with savings of 10+ Watts over tested competitor garments in world competition.

GRIP

Super fine internal silicone gripper holds the overshoe in position without adding additional bulk. No slipping down.

FITTED

Opt for our fitting service and we'll create a bespoke pattern for your individual overshoes to maximise your gains within UCI regulation compliance.

TECH

Ultra-low drag fabric with a high stretch threshold for added mouldability and aerodynamic shaping.

NON-UCI LEGAL
T3 AERO+ OVERSHOE

TIME TRIAL

The extra height in the T3 Aero+ Overshoe amplifies the streamline shape. Save up to 10 Watts at 50km/h over tested competitor garments.

FITTED

Opt for our fitting service and we'll create a bespoke pattern for your individual overshoes to maximise gains for your unique geometry.

TECH

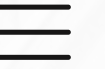

The zip flexes with the garment holding it closer to the body for improved fit whilst being more comfortable.

TESTED

The wind tunnel tested trip seam transition system reduces drag and maximises aerodynamic gains with air stability enhancement.

T3 AERO CALF WRAP

WATTS

The unique trip seam transition system reduces drag and maximises aerodynamic gains with air stability enhancement.

FABRIC

Ultra-low drag fabric with a high stretch threshold for added mouldability and aerodynamic shaping.

TECH

The full length zip flexes with the garment holding it closer to the body for improved fit whilst being more comfortable. Easy unzip for quick transitions.

GRIP

Super fine internal silicone grippers hold the garment in position without adding additional bulk. No slipping down.

WIND TUNNEL TESTING

Impsport T3 garments are put through their paces in wind tunnel testing sessions - from the fabric selection to the placement of zips and trip seams. Each variable is measured then optimised by looking at the overall aerodynamic characteristics:

- Reduce drag with trip seams in perfect aero positions.
- Maximise total aerodynamic gains with air stability enhancements.
- Improve garment shape with custom fitting to ensure perfect airflow for the individual.
- Unique stretch zips with flex technology for a better garment hold whilst increasing comfort too.
- Wind tunnel and real-world testing at every step to turn incremental advantage into world beating garments.

IMPSPORT OFF-ROAD

SHORT SLEEVED
DOWNHILL JERSEY

FIT

The Downhill Jersey is fashioned with a heavier cut allowing extra room for crucial body armour without being too bulky or constricting.

FABRIC

The breathable ClimaCore fabric is just as technical as a traditional jersey to keep you cool, dry and looking good, but the looser fit and rounded collar ensure it is easy to wear.

CUSTOM

Fully customisable jersey with raglan sleeves which offer increased comfort, fit and large logo design area.

TECH

Wear this garment if you are looking for a tough & rugged jersey for MTB, BMX, downhill, trail or Enduro racing.

CLASSIC

The long sleeved version of the Downhill Jersey is perfect for getting muddy on twisting-turning forest routes in cooler weather or with full arm protection.

FIT

Featuring a heavier cut than a traditional jersey, allowing extra room for crucial body armour without being too bulky or constricting.

BREATHABLE

Manufactured using ClimaCore fabrics, designed to wick moisture away from the body quickly, keeping you cool and dry.

CUSTOM

Fully customisable jersey with raglan sleeves which offer increased comfort, fit and large logo design area.

CYCLE SPEEDWAY

CUSTOM

Designed for the quick bursts of speed and action of the oval track - the fully customisable Cycle Speedway Jersey is the perfect addition to team racing squads.

NUMBER

Featuring Velcro strips on the back panel to aid the easy addition of race numbers (also available in custom designs).

BREATHABLE

Manufactured from technical performance polyester eyelet fabrics, designed to wick moisture away from the body quickly, keeping you cool and dry.

COMFORT

The Cycle Speedway Jersey is robust enough for shoulder to shoulder cornering, yet flexible to allow freedom of movement. The non-slip elasticated hem keeps the jersey in position.

OFF-ROAD KIT OPTIONS

Downhill and MTB style jerseys traditionally have a loose cut allowing extra room for body armour without being too bulky or constricting.

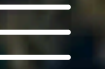

Fitted jerseys are favoured by cross-country mountain bikers and feature rear pockets for stowing spare tubes, tools and snacks. The tighter fit stops excess material flapping around making them more aero-efficient.

The T2 range offers a number of XCO/XC garment options including the **T2 Jersey** and **T2 Bibshorts**. Both offer specialist streamlined fabrics for improved drag reduction and maximum speed through the air.

XCO

XC

IMPSPORT TRIATHLON & ATHLETICS RANGE

T1 TRIATHLON SUIT

CUSTOM

Fully customisable garment - finished with a $\frac{3}{4}$ length concealed zip to the front or back for maximum design application.

COMFORT

With an optimised anatomic form, the T1 Tri Suit has a classic sleeveless finish and contoured panels to cut through air and water with minimum resistance.

POCKETS

Optional mesh pockets, strategically placed to minimise drag while swimming and provide easy access to nutrition during the bike and run segments.

COMFORT

Narrow, tri specific, Dolomiti pad made from a perforated & stretchable compound which results in a highly breathable and rapid drying seat pad.

T1 TRIATHLON TOP

FIT

Adapted to perform in the swim, run and cycle disciplines the T1 Tri Top has a contoured fit for reduced drag coefficient in all aspects of triathlon training and competition.

FABRIC

The ClimaCore stretch fabric compresses gently for a great feel against the skin and dries extremely quickly out of the water.

POCKETS

The T1 Tri Top is designed to work in harmony with the T1 Tri Shorts and comes with optional mesh pockets for longer competitions and training sessions.

CUSTOM

Finished with a $\frac{3}{4}$ length concealed zip to the front or back for maximum design application.

T1 TRIATHLON SHORTS

CUSTOM

Customisable leg panels and pre-dyed short middles offer the perfect combination for comfort and long garment life.

FABRIC

Manufactured using ClimaCore and ClimaTec fabrics, designed to wick moisture away from the body quickly, keeping you cool and dry.

COMFORT

Narrow, tri specific, Dolomiti pad made from a perforated & stretchable compound which results in a highly breathable and rapid drying seat pad.

FIT

Tight, professional fit, helps keep muscles warm and optimise performance.

RUNNING VEST

TECH

Available with a classic full back or crossover back (perfect for warmer training sessions and hot weather racing).

CUSTOM

Featuring side panels as standard for increased comfort and further custom design options. Available in gender specific fits and children's sizes.

FABRIC

140 gram technical performance ClimaCore fabric is lightweight, highly breathable and fast drying.

FIT

Regular fit allows full freedom of movement and minimal obstruction to maximise airflow and keep you feeling fresh.

IMPSPORT ACCESSORIES

CENTRE BAND
CYCLING CAP

CUSTOM

The Impsport Centre Band Cycle Cap has a clean pattern to enhance logo / design application, making it an ideal finishing touch for your club or team kit.

DESIGN

The stiffened brim can be worn up or down depending on how dapper you are feeling, or to reveal design detail on the inside of the brim.

BREATHABLE

Manufactured from 100% Polyester ClimaTwill for a lightweight, cotton feel and enhanced moisture wicking properties.

FIT

The cap fits under most cycle helmets and will help keep sweat, rain and sunlight from your eyes.

THERMAL ARM & LEG WARMERS

CUSTOM

Combining black ThermoCore fabric for a longer garment life and enhanced thermal insulation, with fully customisable panels for great looking club or team colours.

THERMAL

The soft, fleece-like interior traps a layer of warm air next to the skin to shield the rider from wind-chill, keeping muscles warm and optimising performance in cold weather.

COMFORT

Seams have been placed to ensure no chaffing, no matter how hard you ride, and silicone grippers hold the garment securely in place.

REFLECT

Reflective piping in key areas for additional visibility in low light and bad weather.

THERMAL OVERSHOES

THERMAL

Overshoes are a vital part of any cyclist's winter wardrobe - enrobing your cycling shoes with thermal warmth and reducing wind-chill and spray ingress.

TECH

The streamlined outer profile cuts through the air better than the cycle shoe alone, keeping laces and straps firmly in place.

CUSTOM

The design application is fully customisable for great looking club or team colours. Finished with a rear zip closure for easy on/off and silicone gripper system to reduce unwanted movement.

TECH

The sole of the Overshoe is patterned for heel and cleat holes and reinforced with an overstitch to increase the life-span of the garment.

SNOOD / NECK BUFF

VERSATILE

Highly versatile and light-weight, the Impsport Snood is warm and flexible, the perfect accompaniment to frosty morning rides and windy training sessions.

CUSTOM

The design application is fully customisable for great looking club or team colours. It can also be used as a victory flag to wave as you cross the finish line to ensure maximum triumph.

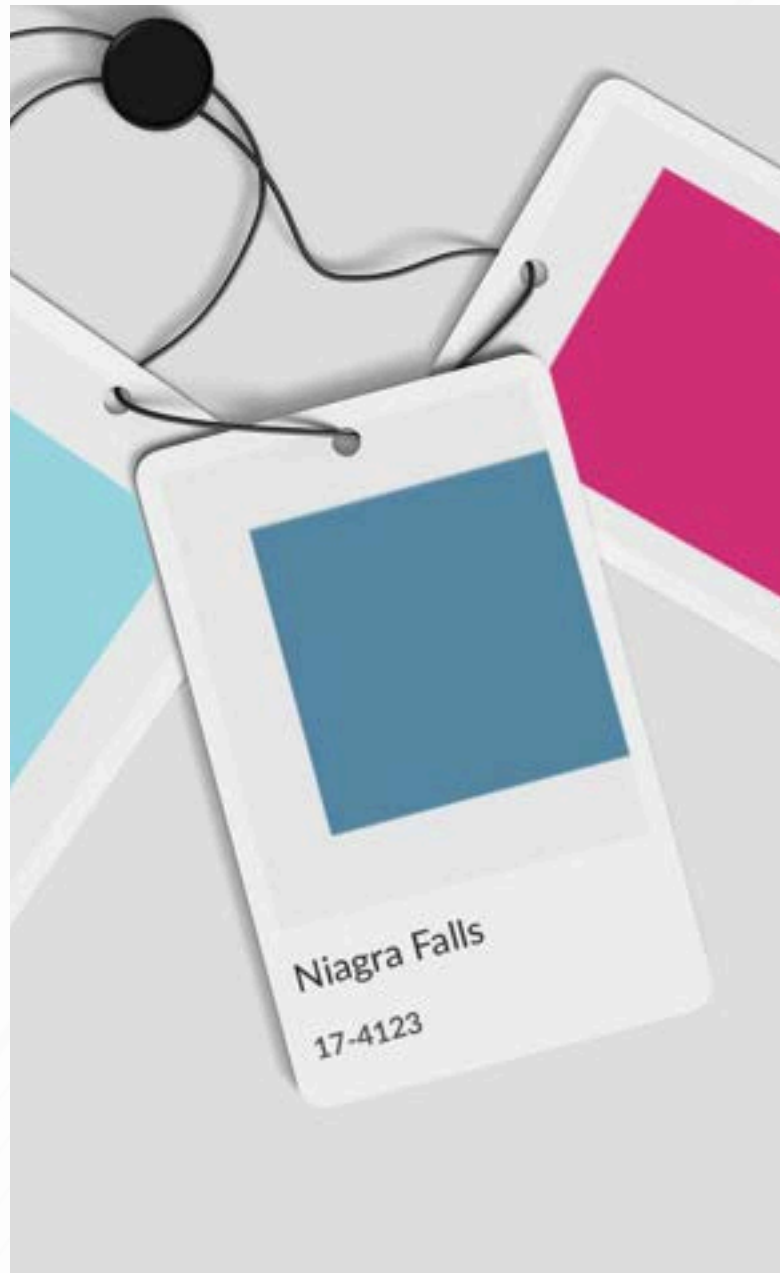

WARM/COLD

Repel dust and dirt in dry, warm conditions by wearing the Snood across the nose and mouth, or on cooler rides tuck the Snood into your jersey collar or pull it over your ears and head.

BREATHABLE

The Snood has a robust construction that stretches multiple ways holding it in position, and the soft, cotton-feel ClimaCore fabric is itch free and highly breathable.

DESIGNED & MADE IN BRITAIN

UNIQUE SOLUTIONS

The Impsport team of designers and garment technicians work together to gain every ounce of performance possible.

All parts of the design, fitting and production process are carried out at our Lincoln base to ensure quality throughout - at a price that won't make your eyes water.

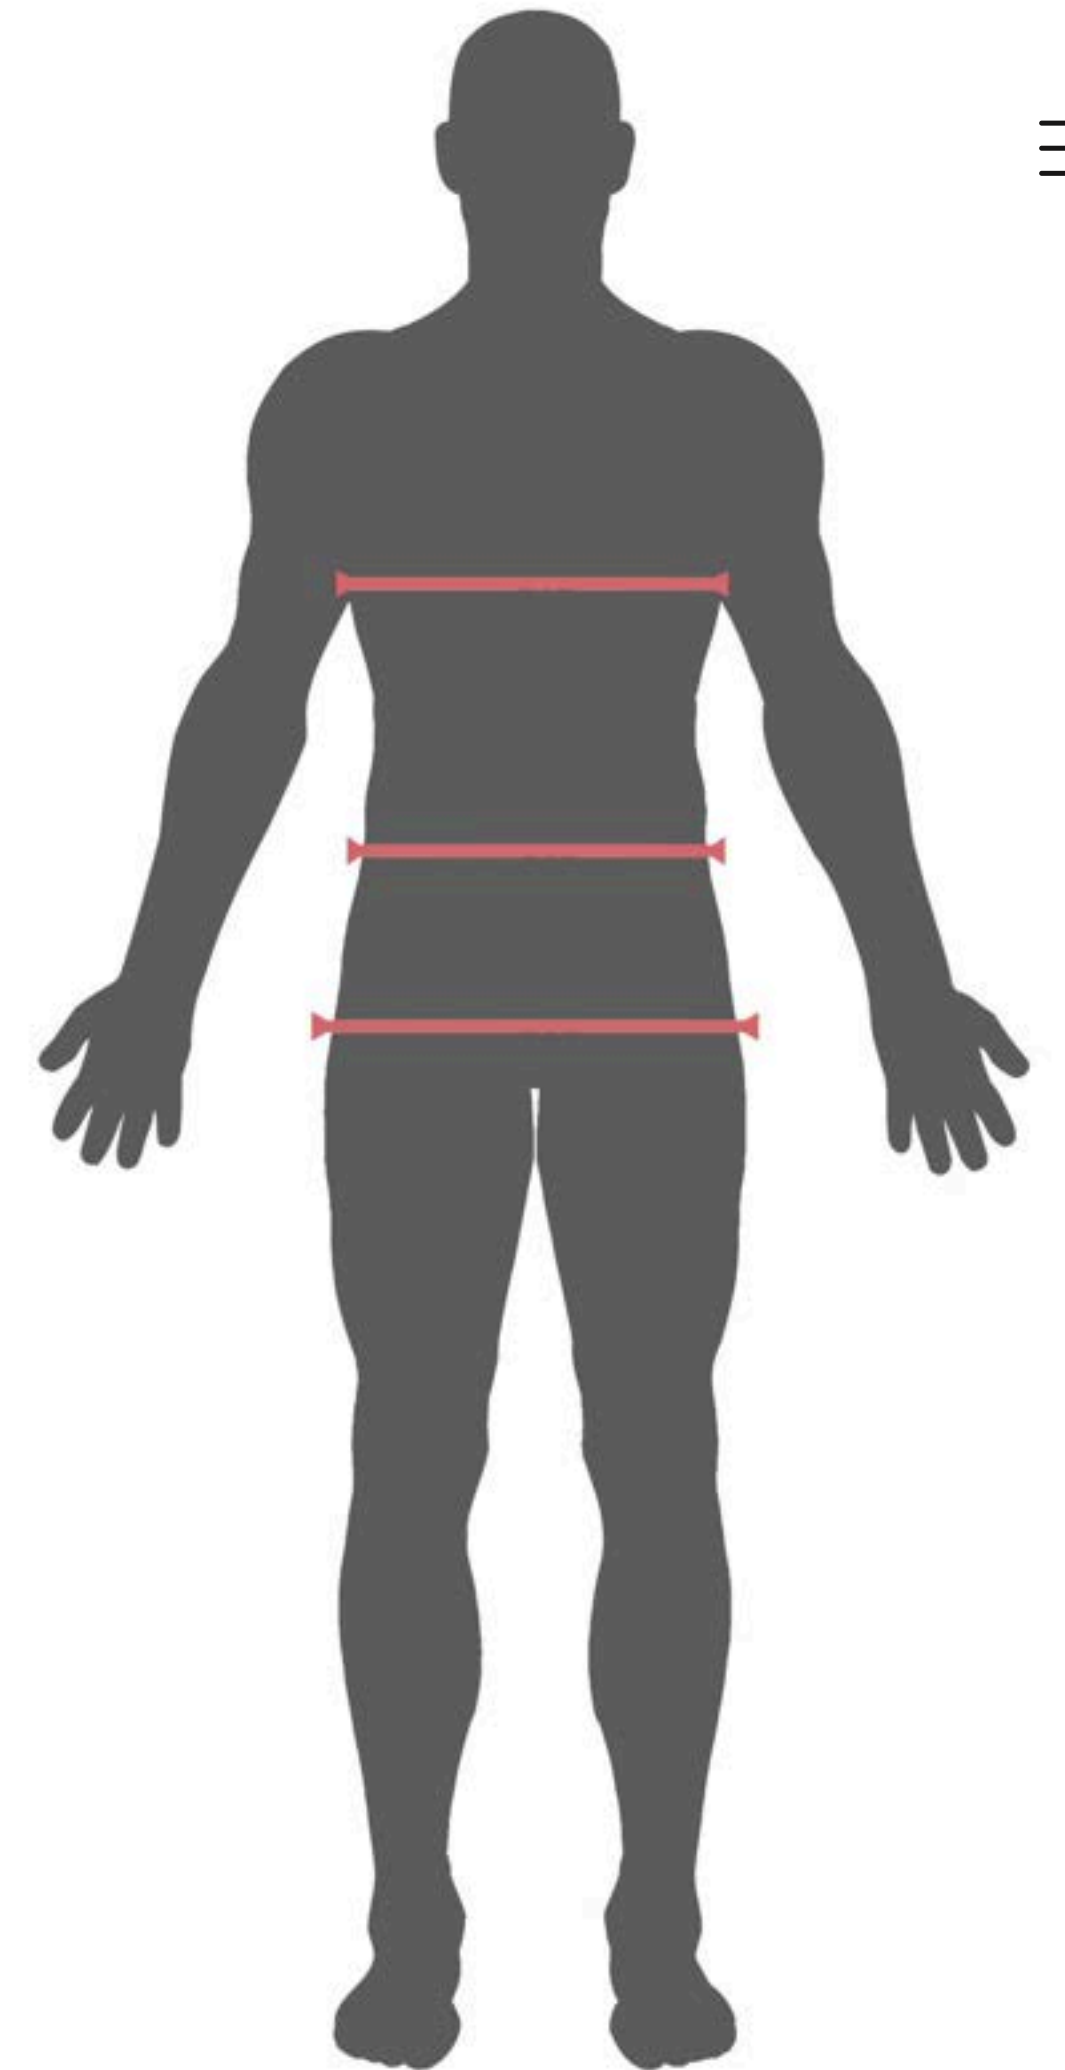

SIZE GUIDES & FIT

Impsport size charts are of body measurements only, not garment measurements. We do the work in our patterning to ensure that Impsport clothing is cut with the right amount of room to fit the measurements stated on the guide. We encourage you to measure yourself before choosing what size to order.

CUSTOM KIT OFFERS & BUNDLES

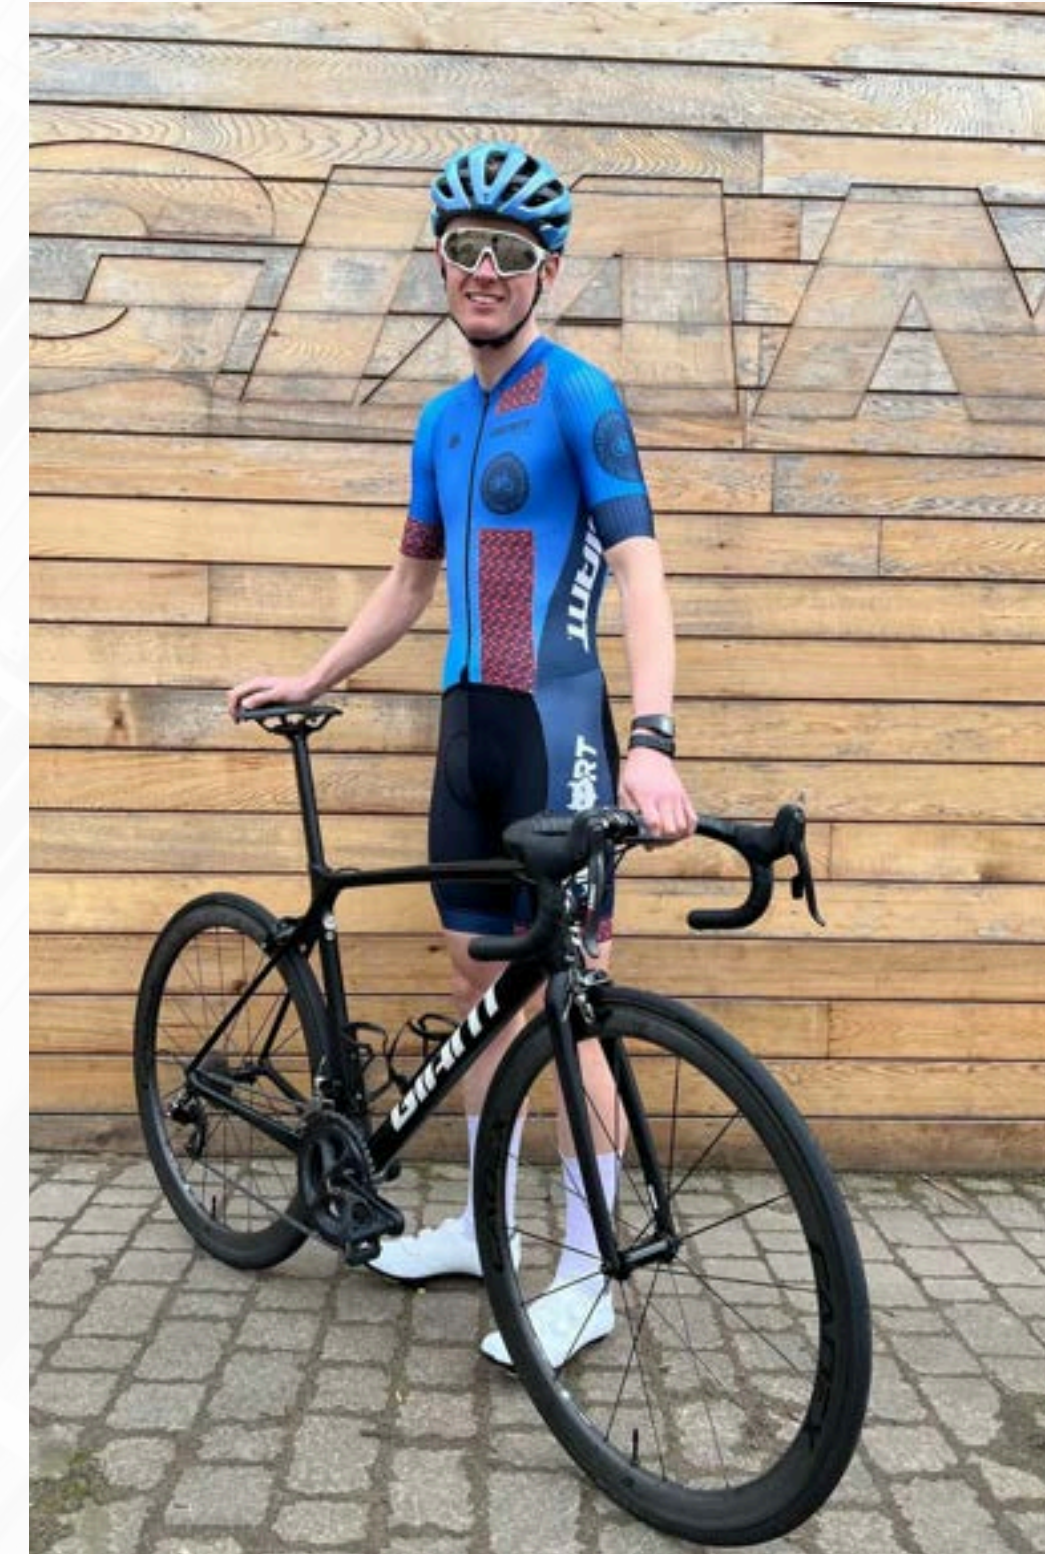

We've got some cracking deals to help stretch your funds that little bit further! Offers include our popular bundle deals, mix & match bulk discounts and exclusive special offers. Ordering for a team, sportive event or charity fundraiser has never been easier.

FREE UK SHIPPING

All Impsport bundle deals include free UK shipping to one destination ready for easy distribution to your team. Need more? Add extra garments at the same great bundle deal prices.

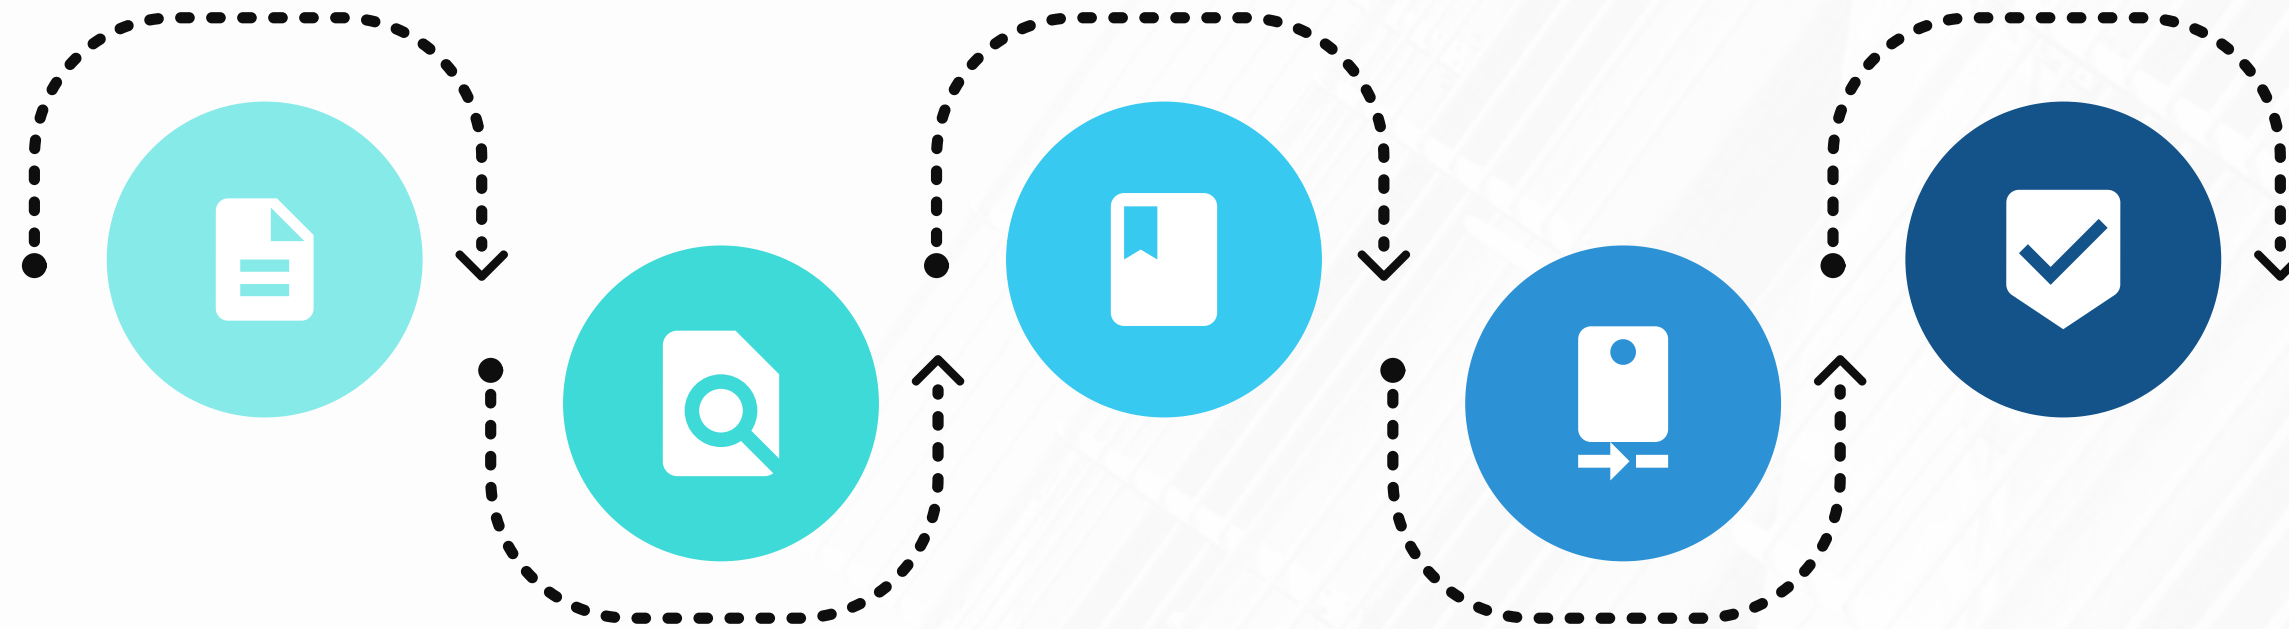

FREE ARTWORK SERVICES

Our inclusive bundle deal prices also include free artwork services enabling you to create unique designs. Plus, all our artwork is transferable across the full range of Impsport custom garments.

DESIGN & MANUFACTURE PROCESS

BRIEF

Tell us your design ideas (a drawing on a scrap of paper will do) or share a design from cyclingkitdesigner.net

KIT

Our experienced customer team can help you find the right garments and arrange samples

PROOF

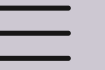

The Impsport creative team will design your kit and send a PDF proof for approval before we go to manufacture

MANUFACTURE

Once you are happy with the design and have signed-off on the proof we'll start manufacture

DELIVERY

We manage all our print and sewing processes from our HQ in Lincoln ensuring prompt despatch and a quality final product every time

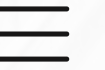

CYCLING KIT DESIGNER

LOOKING FOR DESIGN INSPIRATION?

The Impsport Cycling Kit Designer is an easy to use tool that will help you create unique custom garments in a matter of minutes. Transfer your cycling jersey design onto any of the Impsport custom cycling, triathlon or athletics garment ranges.

[CYCLINGKITDESIGNER.NET](https://www.cyclingkitdesigner.net)

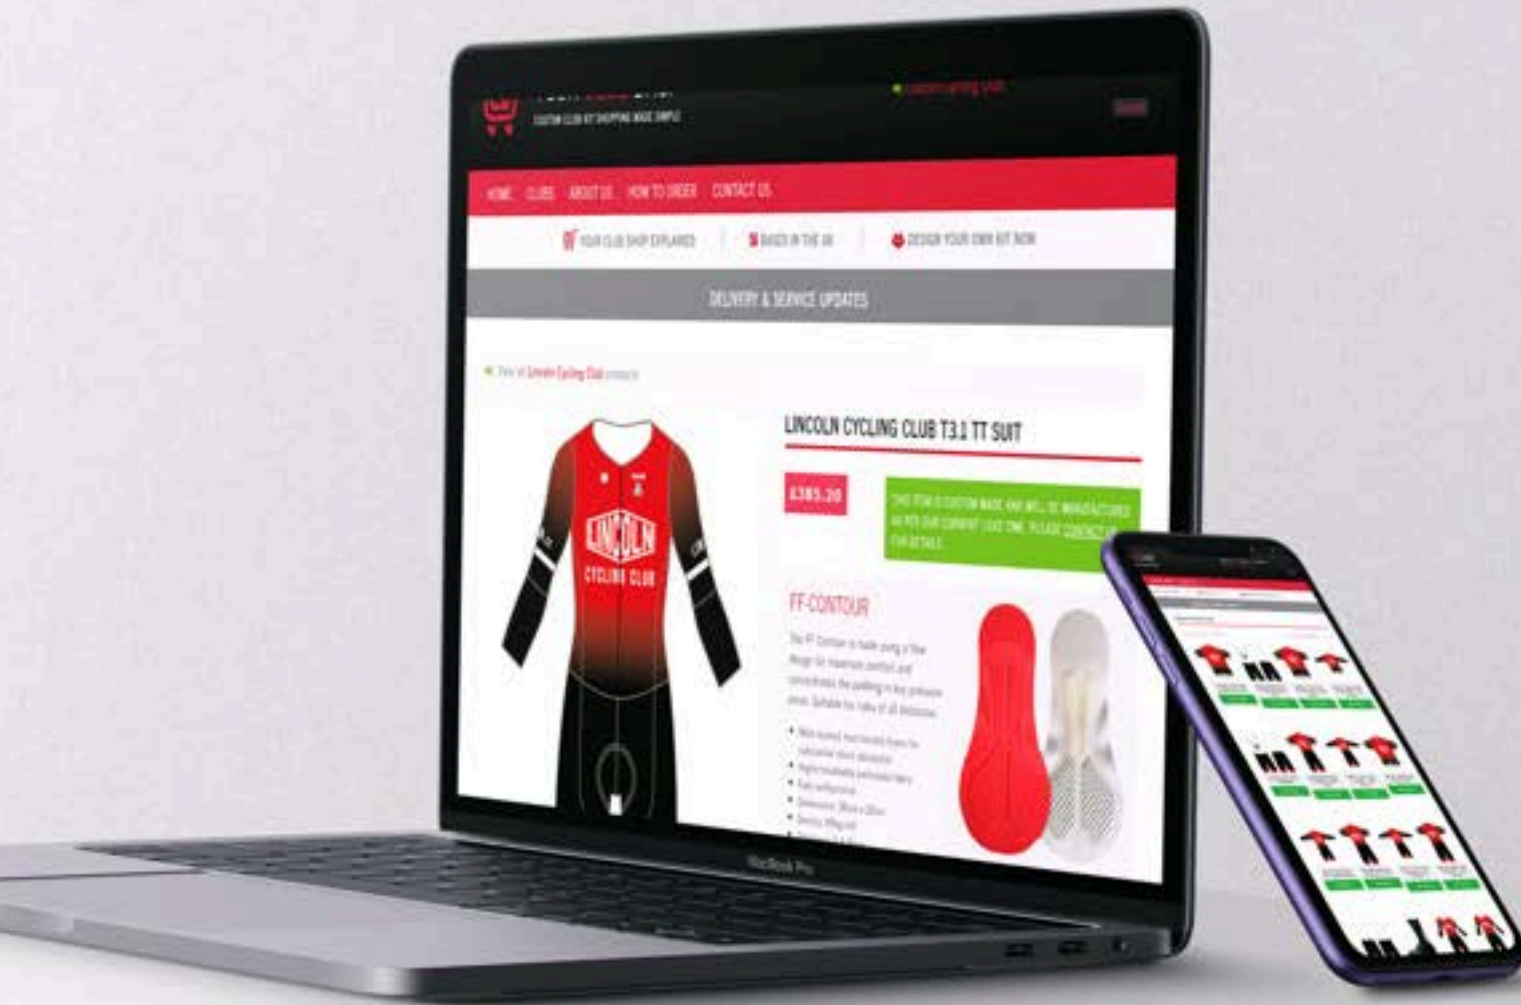

YOUR CLUB SHOP SERVICE

The perfect solution for easy custom kit management is included free as part of the Impsport package. Offer kit to your team or open a new revenue stream for an event or business.

- Order and pay individually whilst still receiving pre-arranged discounts.
- Flexible shipping and delivery options - have items delivered to individuals or to a kit manager.
- Full custom preview images with garment specification, size guides and useful information.
- Select and offer all or any mix of the Impsport range.
- Secure online payments with password protection options (if required) to limit who can see and purchase your items.
- The huge range of premium, custom garments from the Impsport range includes printed and/or embroidered tees, hats, hoodies and more. Contact us for details.

[VIEW THE CLUBSHOP DEMO](#)

CUSTOM PRINT

Impsport offer a range of sublimated, print and embroidery options over a huge selection of garments.

Printing is a cost effective solution for team wear and makes a great branded merchandise purchase for fans and supporters. Integrate custom print into a clubshop for a complete fulfilment package.

- Screen print, digital print and embroidery
- 1000's of garment options
- Low minimum orders
- Finisher tees and hoodies
- Coordinated team wear
- Event sales
- Promotional branding

IMPSPORT PARTNERS

Impsport have the privilege of working with the most talented and motivated riders of the past 40+ years. We develop and manufacture custom cycling race suits for the UK Sports Institute, who have themselves produced kit for the national governing body of British cycling. You've probably seen Impsport kit in lots of (dis)guises!
